After 22 years, the Philippine Society for Cosmetic Science (PSCS) will once more host the ASCS Conference. It will be the 17th Asian Societies of Cosmetic Scientists Conference to be held on 04-05 June 2025 at the World Trade Center Pasay City, Metro Manila, Philippines.

This bi-annual conference is one of the most important venues where the latest scientific developments in the beauty industry from Asian Scientists are presented. The conference is expected to be attended by local and international formulators, researchers, chemists, chemical engineers, academe and supporters of the cosmetic industry.

It is our vision to promote our own local products, discoveries, concepts, ideas, and breakthroughs as well as welcome and embrace the opportunity to experience the advancement in Beauty technology, science, inventions, and products from our international partners and delegates. It will be the best opportunity to increase visibility and foster friendship in the cosmetic science community around the globe.

We are also honored to partner with Informa Markets as they launch their trade show Cosmobeaute in the Philippines simultaneous with our conference.

We enjoin you to partner with us in this endeavor by way of oral and/or paper scientific presentation, delegate participation, sponsorship and/or exhibition.
